

-
- This exploded view diagram illustrates the components of a faucet assembly. The main components include:
- Faucet Body:** A central curved body with a vertical stem on the right side.
 - Handle:** A horizontal lever handle with a circular base.
 - Mounting Hardware:** Includes a large circular base plate, a smaller circular plate, and a vertical stem with a textured grip.
 - Decorative Elements:** Two circular plates with a cross-shaped design, likely for the faucet's base or handle.
